| • Level design | • Greyboxing / Blockout | • Leadership |
| • Gameplay Design | • Gameplay Prototyping | • Mentoring |
| • Scripting | • Iteration & Playtesting | • Cross-functional Collaboration |
| • Balance | | • Documentation |
-

Experience

WARGAMING

Level Designer (World of Tanks) | 2022 – Present

- Owned the full lifecycle of multiple multiplayer maps, from concept sketches, level layouts and greyboxing through gameplay implementation, iterative playtesting, balancing and final release.
- Collaborated closely with Level Art, Engineering, VFX, Audio and QA to integrate gameplay systems, visual storytelling and technical requirements into cohesive player experiences.
- Mentored Level Designers and cross-functional teammates by sharing expertise in proprietary tools, engine workflows, and technical level design, improving onboarding efficiency and supporting smooth collaboration between Design, Art, and Engineering.
- Collaborated with Engine and Tools Engineers to improve proprietary level editing tools and streamline level production workflows.

Selected Achievements:

- **Random Events:** Prototyped and shipped 10+ dynamic gameplay scenarios across 30% of the project's multiplayer maps, achieving 90%+ positive player feedback. As part of major content updates, contributed to releases reaching +60% Peak CCU and +20% AU.
- **Neon Dash Live Event:** Owned the production of a limited-time event and designed its dedicated multiplayer level, introducing a new battle racing gameplay experience. Reached 33% AU participation, 27% Day-2 and 15% Day-3 retention across two event runs, with one of the highest average playtimes among recent live events.
- **Legacy Map Redesign:** Reworked and rebalanced 50%+ of the project's multiplayer maps, reducing balance issues to target thresholds through iterative design. Completely rebuilt 2 legacy maps from the ground up, improving their player ratings from the bottom of the map rankings into the top half.

Education

Vilnius Gediminas Technical University (VILNIUS TECH), Bachelor of Informatics (business), June 2023

Belarussian State University of Informatics and Radioelectronics, Bachelor of Informatics (game industry), June 2022

Pet projects

ASTERMAN

Game designer / Unity developer | 2026 - Present

Solo-developed and shipped two mobile games, taking ownership of game design, gameplay systems, level design, balancing, UI implementation and release on Google Play and the App Store.
